## 2024 HSA Limits Released

---

June 1, 2023

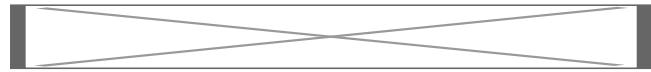

On May 16, 2023, the IRS released Revenue Procedure 2023-23. This new Revenue Procedure included the 2024 Health Savings Account (HSA) contribution limits and the 2024 minimum statutory deductibles and maximum out-of-pocket contributions for High Deductible Health Plans (HDHPs).

For 2024, the annual HSA contribution limit for an individual with self-only coverage under an HDHP is increasing from \$3,850 in 2023 to \$4,510. The HSA contribution limit for an individual with family coverage under a HDHP is \$8,300, up from \$7,750 in 2023. The catch-up contribution for individuals age 55 and older remains \$1,000.

For 2024, a group health plan will qualify as an HSA-compatible HDHP if it has an annual deductible of at least \$1,600 for self-only coverage and \$3,200 for family coverage. In addition, the annual out-of-pocket expenses must not exceed \$8,050 for self-only coverage or \$16,100 for family coverage.

As employers begin planning for 2024 health plan coverage, it is important to review these plan design features to ensure they are complying with these new limits moving forward.
