Amanda Schipp is a member of the firm's Health Care Practice Group and focuses her practice in the areas of publicly funded healthcare programs, particularly Medicaid and the Affordable Care Act. Ms. Schipp has over 12 years of experience working in multiple areas of health care policy, and has counseled clients on a wide variety of matters including Medicaid reform strategies and managed care requirements.

Prior to joining Krieg DeVault, Ms. Schipp served as a Senior Policy Consultant at HMA Medicaid Market Solutions, previously SVC, Inc. As a consultant, she worked closely with government leaders, health plans, and other healthcare clients in navigating the complex statutory and regulatory Medicaid landscape to analyze the impact on her client's policy objectives, program design, and compliance in an ever changing federal and state environment. Ms. Schipp was intimately involved in the development and implementation of several groundbreaking Section 1115 Medicaid demonstration waivers, becoming a national leader in drafting and negotiating complex Medicaid waiver applications, extensions and amendments. She is well-versed in both the formal guidance and unofficial policies of the Centers for Medicare and Medicaid Services (CMS), and is therefore uniquely positioned to bring her years of experience working with states and CMS to assist her clients with their individual needs.

Prior to consulting, she gained further experience in her role at the Indiana Family & Social Services Administration, the state's health and human services agency, where she served as Strategic Initiatives Programs Director, managing the coordination of health policies across all of the divisions within the state's largest agency. Additionally, Ms. Schipp previously served as an attorney at a large Indianapolis-based law firm focusing on corporate transactions and regulatory matters in the health care industry.
