

Fraternities and Sororities

Krieg DeVault's fraternities and sororities team has extensive experience in the many aspects of daily fraternity and sorority needs, including the areas of employment, litigation, governance, real estate and housing, philanthropic, non-profit, and risk management issues.

Many of our attorneys have worked with fraternities and sororities as both legal counsel and through board service. These experiences give us the ability to understand the legal challenges fraternities and sororities face, and also understand the practical aspects of implementing solutions.

Focus Areas

Crisis Management Facilitation and Administration
